Students of the week

- **Fern** – always using the 5 L’s of a respectful, caring and diligent student.

- **Seddah** – always trying her hardest

Happy Birthday
Happy birthday to Asha & Seth who are celebrating their birthdays early next week.

PBL
This week in PBL the Opals have been working on 'Getting Along' so we can be Respectful, Responsible, Caring achievers.
On Monday afternoon we played cooperative games to demonstrate and practise our skills of 'Getting Along'. The Opals agree that to get along we need to:
* be nice, be fair, stay positive, listen to others, show respect, share, stay safe, speak kindly, stick to the rules and help each other.

Bus Travel
Barry, our bus driver came into the school on Tuesday morning most distressed and deeply concerned about the safety of all travelling on the bus each day.
It is impossible for the driver to do his job on such a treacherous road and manage the unacceptable behaviours of some of its passengers.
All bus travellers were involved in a meeting at school yesterday where it was explained that inappropriate language, movement on the bus whilst its moving, bullying of other passengers and the general noise level of students will not be tolerated as it jeopardises the safety of all
travellers. A letter from both Waller’s Bus Company and from the school will be issued in the near future. It clearly states that continued unacceptable behaviour will be met with children being asked to find other means of transport to and from the school. The children have also ‘unpacked’ discussed and committed to the ‘Code of Conduct’ for bus travel today and will be asked to sign it and pledge to abide by its requirements. This ‘Code of Conduct’ is also clearly visible on the bus window. Please support the safety of your children by discussing this serious matter and reporting any further incidence of inappropriate behaviour to either Barry or the school office immediately.

Opals
The opals have continued to work on fractions this week as well as 2, 3 and 4 digit multiplication and addition. We are also working hard to finish off our grammar, English skills and spelling workbooks as the end of term approaches. In science we have been working on the very hot topic "heat" and discussed what good sportsmanship means in P.E. and art. As our cross country event draws closer we have also been practising our running and stretching as well as breathing exercises.
Mrs Langdon

Diamonds
As the Term winds down, the extreme weather of late and Cross Country training I find the sensational Diamonds beginning to wilt. We have slowed down the pace somewhat to cater for their current needs. I am encouraging the children to have early nights, to eat well and to drink plenty of water. Our afternoons comprise of quiet reading, playing, drawing and listening to music. May I also request any used magazines be brought in as we use them often and our supply is running low. Many thanks
Jenny

Tuckshop
Rostered for Monday 30th March –
Baking – Nerida
Serving: Melissa

My First Year
Yesterday The Northern Star published ‘My First Year 2015’ liftout which featured our 2015 Kindergarten class.

Darby – kindergarten 2015
We made these ‘birds in a tree’ in art
